Lamar State College Port Arthur Summer and Fall 2025 Semester / Class Schedule

Loans

Short Term Loans

Students should visit the Business Office to apply for short term loans. Short term loans must be paid within 60 days after the first class day.

For more information go to the Business Office at 1501 Procter Street.

Paying Tuition

Tuition and fees are subject to change based on the Texas State University System, LSCPA policies and/or state and federal regulations.

Payment of Fees

A student is not registered until all fees are paid in full or the student has been approved for the installment payment plan.

Note: Students awarded sufficient financial aid or scholarships to pay their bill will not be dropped from classes for non-payment.

Payment Options

1. **In Person** The Cashier's Office is located in the Business Office at 1501 Procter Street. Regular business hours are 8 a.m. until 5 p.m., Monday through Friday. The Cashier's Office is closed from noon to 1 p.m.
2. **By Mail** Send check or money order to the address below. You must include your student ID number (P number) on your check or money order.
Cashier's Office, Lamar State College Port Arthur, P.O. Box 310, Port Arthur, TX 77642.
1. **Web System** Students can pay their tuition and fees by check or credit card online through their MyLamarPA account and use Self Service. LSCPA accepts American Express, VISA, Discover, or MasterCard. Students may obtain account balance(s) by going to the Lamar State College Port Arthur homepage at www.lamarpa.edu/ Follow the instructions to locate your account balance and make payment.

Warning: Be careful that you select the correct term or semester when you make a tuition payment.

Do not pay for multiple terms!

You must, for example, pay tuition for spring by selecting the spring term. Failure to correctly select the term and make payment per semester will result in the student being dropped from all classes in one or more semesters or terms.

Payment Amounts

Payment in full. Students that have paid all their tuition and fees for a semester will be registered for classes in that semester.

More than 50% of tuition and fees paid. Students that pay more than 50% but less than 100% of their tuition and fees for a semester will be placed on the Installment Payment Plan.

Less than 50% of tuition and fees paid. Students that pay less than 50% of their tuition and fees for a semester will be dropped from all classes.

Installment Payment Option

Students may enter into an installment contract with the college (during the fall and spring semesters only).

Any payment for an amount less than the full balance of the account constitutes an acceptance of an installment contract with the college. Drop and/or withdrawal refunds for students using the installment plan are calculated as a percentage of the total tuition and fees assessed, not as a percentage of any partial payments.

If a class is added after a student is placed on installments, the student is responsible for 100% of the tuition and fees for the added class. The tuition and fees for the added class must be paid before the payment date listed in the calendar.

A non-refundable service charge of \$20 is assessed for the installment plan option. A late fee of \$15 will be assessed beginning the first day after an installment due date for each delinquent payment.

Residence Status

Tuition is based upon the number of hours for which the student registers and is determined by the student's classification as a Texas resident, a non-resident U.S. citizen or a citizen of another country. Determination of legal residence for tuition purposes is made on the basis of statutes of the State of Texas.

Financial Obligations

A student who fails to make full payment of tuition and fees, including any incidental fees, by the due date, will be prohibited from registering for classes until full payment is made. A student who fails to make payment prior to the end of the semester may be denied credit for the work done that semester. Also, holds will be placed on academic records so that students cannot obtain transcripts and/or receive grades. All delinquent installment accounts, NSF checks and delinquent short-term loans will be released to a collection agency/credit bureau. All costs of collection are payable by the student to the collection agency. Collection fees shall include a fee of 33.3% of the original balance due.

Payment Deadlines

Students are responsible for paying tuition and fees prior to the deadline date. Students that fail to meet payment deadlines will be dropped from their courses.

Withdrawal from the college does not relieve the student of any financial obligations under the Installment Payment Agreement or Student Loans. These debts are the student's legal financial commitments.

Refunds will be processed in accordance with the published Refund Schedule. Withdrawal from the college must be done with an advisor in order to receive a refund. A student seeking reinstatement to the college within the same semester after having withdrawn or been withdrawn shall pay a \$50 reinstatement fee, in addition to late payment fees. Students on an installment plan must also pay all past due balances at the time of reinstatement.

For refund purposes, the first class day is always the official first class day of the semester. Students that officially withdraw will receive a refund for Tuition, Laboratory Fees, Student Services Fee, Student Center Fee, and Institutional Service Fees according to the following Refund Schedule:

Dropped Courses

Students, excluding recipients of federal financial aid, who drop courses during the first 12 class days of the fall or spring semester or within the first four days of a summer semester and remain enrolled at LSCPA, will receive refunds on tuition and fees for that particular course or courses. Texas State University System policy requires that refunds be deposited directly into a student bank account.

Matriculation Fee

A matriculation fee of \$20 will be incurred by students who withdraw prior to the first day of class. The fee will be deducted from refunds.

Direct Deposit

Students are strongly encouraged to set up a Direct Deposit Account. See "Steps to set up your Direct Deposit" to follow.

If the direct deposit is returned from the students' banking institution for Account Closed, Unable to Locate, Invalid Account Number, etc., there will be a \$25 charge deducted from the refund each time the refund is returned.

Note: Only after all outstanding balances have been paid, will any resulting credit balance be transmitted to a Direct Deposit Checking Account. Direct Deposit transactions may take 3-5 business days after transmission. Students must contact LSCPA

Parking Permits

Students parking on campus must purchase a parking permit and display the permit in their vehicle while on campus.

Developmental Courses

Non-Course-Based Option

The Non-Course-Based Option is available to students required to take developmental education courses student based on their scores on the Texas Success Initiative (TSI) Assessment. We currently offer two levels of instruction in Developmental Mathematics and two levels of instruction in Developmental English (Reading and Writing).

Students who place within a few points of being college-ready in Mathematics or English are placed in a Foundations course (DMTH 0132, DMTH 0314, DENG 0301) as a co-requisite to the college level course (MATH 1332, MATH 1314, ENGL 1301). The foundation course supports students through additional classroom time with faculty, one-on-one assistance, and discussion of the college-level course. Students take these two courses in the same semester. When a student completes this co-requisite model with a C or better in the college course, they are not only TSI complete, but also complete in the college level Mathematics or English course.

SEMESTER OPTIONS

Students have an opportunity to learn by selecting from different types of instruction and different semester lengths. Pick the semester that works best for YOU!

Traditional Semester (16-Week Semester)

Traditional instruction occurs in a classroom setting. Students attend class 2-3 times a week. Classroom lectures, demonstrations, and homework assignments are common in this course.

Short Semesters (8-Week Semester)

There are some courses that take place during an eight-week semester. These can be either in a traditional classroom setting or online. These classes start at the beginning of the semester and then again at the mid-semester point.

Online Courses

Online Courses, indicated by Section Numbers in the 70s, are 100 percent online. These are classes that can be taken at any time of the day although there are specific schedules for the completion of assignments throughout a semester, set forth by the instructor's syllabus. Online classes with a Section Number in the 60s is a class where students meet live online during a specific class time.

Hybrid Courses

Hybrid Courses are courses in which some traditional face-to-face time has been replaced by online learning activities. The purpose of a hybrid course is to take advantage of the best features of both face-to-face and online learning. Hybrid Courses are indicated by the letter H in the Section Number.

UNDERSTANDING SECTION NUMBERS

Each course has a corresponding section number that indicates how that class is delivered to students. Here are the definitions for each section number:

1-14: In-person classroom instruction.

50s: Classes held in person, after 5 p.m.

60s: Internet classes that are held live at a specific time.

70s: Internet classes that are accessible any day or time.

H: Section numbers with the letter H are hybrid courses. These include an in-person class as well as separate online instruction.

Becoming a Successful Online Student

Successful online students have a few things in common. If you want to excel in your assignments, be a productive, contributing member of classroom discussions, and overcome the challenges of learning from a distance, give these tips a try.

1. **Be open minded about sharing life, work, and educational experiences as part of the learning process.** Whether you are an introvert or an extrovert, the online process requires you to **utilize your experiences**. The online discussion forum **eliminates the visual barriers** that may hinder you in expressing yourself, also allowing time to reflect on the information before responding.
2. **Be able to communicate through writing.** A majority of communication in the online classroom is written, so it is critical that you feel comfortable in expressing yourself in writing.
3. **Be self-motivated and self-disciplined.** With the freedom and flexibility of the online environment comes responsibility. The online process takes a real commitment and discipline to keep up with the flow of the process. Use the first few days of your course to become familiar with course expectations and make a schedule for yourself. Once you get behind in a course, it is almost impossible to catch up.
4. **Be willing to "speak up" if problems arise.** Many of the non-verbal communication mechanisms that face-to-face instructors use to evaluate student understanding (confusion, frustration, boredom, absence, etc.) are not possible in the online forum. If you experience difficulty on any level (either with the technology or with the course content), communicate this immediately. Otherwise your instructor may never know something is wrong.
5. **Be willing and able to commit 15 to 20 hours per week to your course.** Online is not easier than the traditional educational process. In fact, many will say it requires much more time and commitment.
6. **Be able to meet the minimum requirements for the program.** The requirements for online are no less than that of any other quality educational program. You should view online as a convenient way to receive your education – not an easier way.
7. **Accept critical thinking and decision making as part of the learning process.** The learning process requires you to make decisions based on facts, as well as experience. Assimilating information and executing the right decisions requires critical thought.
8. **Have reliable access to a computer and Internet Service.** You must have access to the necessary equipment.
9. **Be able to think ideas through before responding.** Meaningful and quality input into the online classroom is an essential part of the learning process. Time is given in the process to allow careful consideration of responses. Testing and challenging of ideas is encouraged – you will not always be right, so be prepared to accept a challenge.
10. **Feel that high quality learning can take place without going to a traditional classroom.** Online is not for everybody. If you want to be on a traditional campus attending a traditional classroom, you will probably not be happy online. While the level of social interaction can be very high in the online classroom, it is not the same as being on campus. You should expect to:
 - Participate in the online classroom 5-7 days a week.
 - Work with others in completing projects.
 - Use the technology properly.
 - Meet the minimum standards as set forth by your instructor.
 - Complete all assignments on time.
 - Enjoy communicating in writing.
